Sealed proposals will be received by the Division of Public Works, State of Idaho, 502 N 4th Street, Boise, ID 83720-0072 until **2:00 PM**, local time on **February 29, 2012**, for DPW Project 10-193.Campus Lighting & Infrastructure Improvements, Boise State University (BSU), Boise, Idaho

A description of the work of this project can be summarized to include installation of physical and electronic measures to improve the security of the campus lighting and utility infrastructure. This will be accomplished by the installation of bollards and boulders to protect existing utility distribution nodes at (3) locations and the expansion of the existing electronic access control system in (8) campus buildings. Also, access to the parking area of the maintenance service vehicles will be restricted by the installation of a remote controlled vehicle gate and a gate on the openings of the existing brick wall in conjunction with the improvement of the parking area lighting. Work on the existing Millennium Enterprise software and entry access control system will be provided by a manufacturer-certified vendor.

Proposals will be opened and publicly read at the above hour and date.

Plans, specifications, proposal forms and other information are on file for examination at the following locations:
